

## Case Study

**India-Based Insurance Broker  
Achieves Significant Servicing  
Cost Reduction, With Platform  
LTIMindtree's SaaS iCEO<sup>TM</sup>**

## Client

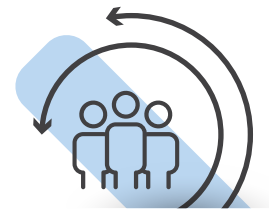

The client is one of the leading IRDA-recognized Direct Insurance Brokers, operating across 7 locations in India. It partners with over 500 leading corporates belonging to varied sectors, including IT-ITES, Banking and Financial Services, Construction, Energy, Hospitality, and Advertising and Media, servicing over a million lives in India.

## Challenges

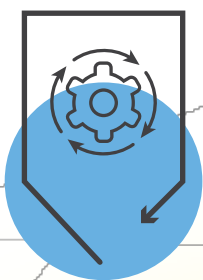

To develop a platform, offering end-to-end solutions for a broker's employee benefits business – a core engine for back office, streamlining through a robust account management module, and a client-facing module that connects consumers more strategically with the broker.

To enhance the operational efficiency of the existing broker workforce and customer engagement, enabling cross-selling of retail insurance policies to the employees of the client's group business customers.

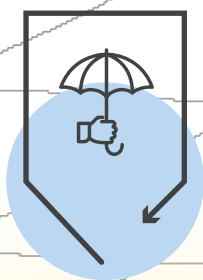

## LTIMindtree Solution

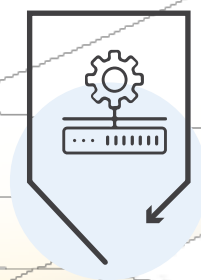

LTIMindtree's iCEOn™ is a futuristic SaaS platform for the Insurance industry, a common access platform, connecting various stakeholders of the Insurance Ecosystem. It helps provide Collaborative Communities, Sophisticated Analytics, Best Customer Experience, Social Media Integration, and Constant Enhancements through Partnerships.

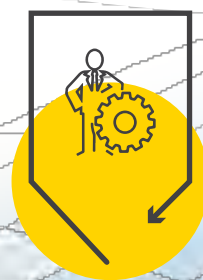

Built Employee Benefits platform, iCEOn™, for intermediaries to automate operations.

Scalable and extendable technology platform to address business requirements of other entities in the insurance ecosystem, and cater to other product lines.

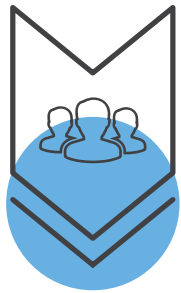

Leveraging partners to provide end-to-end services, including hosting and ongoing maintenance.

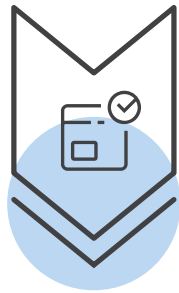

End-customer's employee self-service

## Business Benefits

Client acquired three new corporate customers due to this platform.

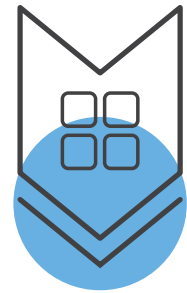

Delivered a comprehensive web-based system to fill the whitespace in the market, to connect the various stakeholders of an employer-sponsored EB program.

Improved operational efficiency for intermediaries through automation.

Enhanced client experience by providing a web-based self-service capability.

Opportunity for intermediaries to cross-sell multiple products.
