

Case Study

Modern Workplace Transformation for
Nordics-Based Consumer Electronics Retailer

Client

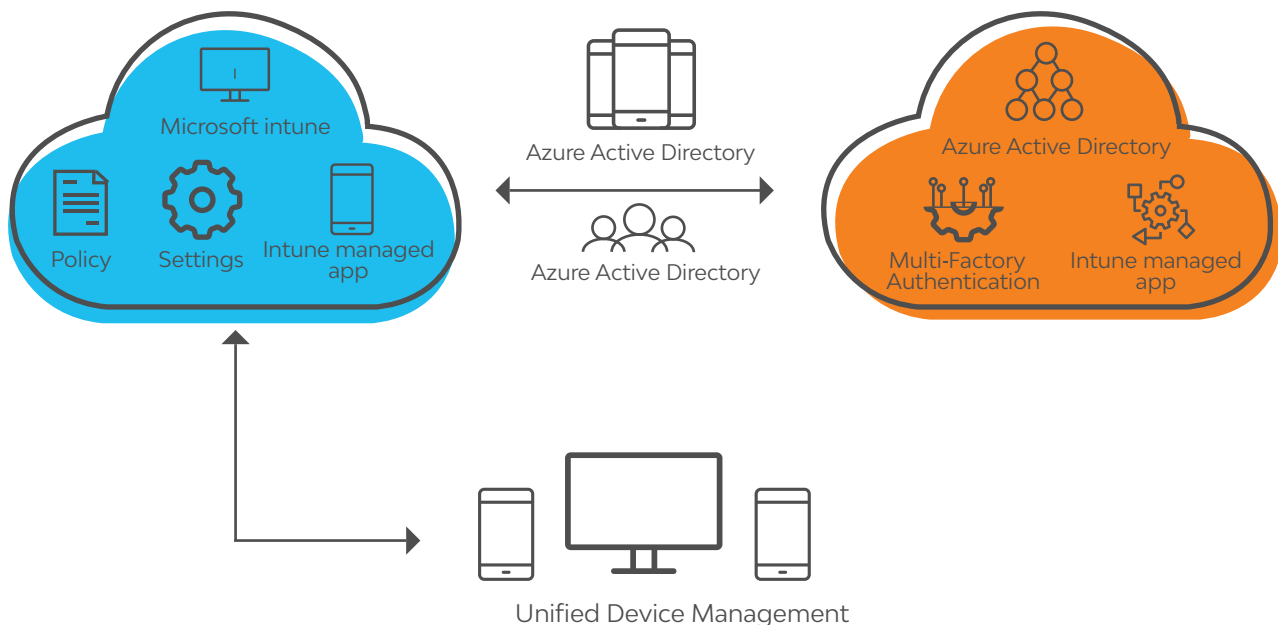

A large consumer electronics retailer deriving revenues majorly out of volumetric sales, the client is head-quartered in Norway, with over 400 stores in six Nordic countries, and over 10,000 employees.

Challenges

- Need for simplified infrastructure with modern IT support
- High cost and management of deployments
- High dependency on IT administrators

LTIMindtree Solution

- MS EMS suite, which consist of Microsoft Intune and Microsoft Azure Active Directory, was used to better leverage capabilities to manage windows 10 on mobile devices/desktops, and balance mobility with app security and identity management.
- Implementing Microsoft Intune and Microsoft Azure helped us address a range of challenges that we faced when enabling mobile productivity, and protecting corporate data on both work and personal devices, including identity and access management, mobile device and app management, and information protection.

Business Benefits

- Simplified infrastructure and enhanced IT support.
- Faster OS deployment and reduced dependencies on IT administrator.
- Adopting Windows 10 inbuilt features for encryption, Bitlocker, and VPN eliminates the cost paid towards third-party vendors.
- Reduction in the cost and management of deployment drastically. No complex image and servicing process as used in traditional management; thus, enabling self-provisioning deployment.
- Single MDM platform for all windows 10 devices, Android, and iOS (Unified Device Management).
- User-based application deployment leverages IT to deploy mandatory applications dynamically and advertise other applications on company portal, so users can install these themselves on required basis.

Technologies Used

MS Azure AD, MS Intune, Windows 10 1703 version, USB-based image management and cloning, Cloud-based applications (O365), and Customized Scripts

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world.
